

GLENN SIGNS TWO DEATH WARRANTS

Carolina Governor Orders Execution of James Rucker and Will Banks July 19th.

WILL NOT ERECT BUILDING

Attorney-General Decides That State Board of Agriculture Cannot Borrow Money.

[Special to The Times-Dispatch.]
RALEIGH, N. C., June 7.—Governor Glenn signed two death warrants today, both executions to be on Friday, July 19th, and both being on certificates from the clerk of the Supreme Court as to the termination of appeals. James Rucker is to be hanged in Buncombe for the crime of criminal assault, having been convicted at the February term, 1907, and sentenced to be hanged last April. The appeal prevented the hanging on that date. The appeal was later withdrawn, so that the Governor now names another day for the execution. It is said that in the meantime effort is to be made to induce the Governor to commute the sentence to life imprisonment. The other death warrant is for Will Banks, convicted in Ashe county for the murder of Frank McMillan, and convicted at the May term, 1906.

State Board Adjourns.
The State Board of Agriculture adjourned today, after four days' semi-annual session. A conference was held by the board with Governor Glenn between 9 and 10 o'clock, during which it was agreed that the board would for the present only make necessary repairs on the present State agricultural building, in view of a ruling by the attorney-general that the board had not the right to borrow money for the erection of the \$60,000 building it desired to erect on the site of the present building.

The board has formally rejected the proposition of the trustees of the Agricultural and Mechanical College regarding the divorcing of the experiment station of the college from the Board of Agriculture, on the ground that the Board of Agriculture should not be expected to set aside \$25,000 for the experiment station, and have absolutely no voice in how the money is expended. A counter-proposition has been submitted, and it is likely that two months or more will be required to finally adjust the differences. The board has designated W. M. Allen, of the State chemist's department, as "food chemist," under the new pure food law.

His right arm was burned almost off. For perhaps half a minute he clung to the wire while it burned into his flesh, and then fell to the street below with a dull thud. He fell upon his head, and his skull was crushed. He was taken to the hospital, but he was pronounced dead. It was a wife of the Raleigh Electric Company which did the work. It is claimed that the insulation was defective. Hill had been in the Western Union fifteen years.

[Special to The Times-Dispatch.]
RALEIGH, N. C., June 7.—Major W. A. Guthrie and Frank D. Jones appeared before the Corporation Commission today in behalf of the Durham and Charlotte Railroad Company and formally petitioned that the road be exempted from the operation of the 2.4-cent passenger rate fixed by the last Legislature. This act is under the provision that any road under sixty miles trackage can be exempted by the Corporation Commission on a showing that the application of the new rate would work hardship on the road. Other roads with less than sixty miles of track have filed applications for exemption from the new rate, among them being the Aberdeen and Rockfish, South and Western, East Carolina, East Tennessee and Western Carolina.

Adams for \$25, for books to be delivered by a publishing house that had been out of business three months before the orders were taken and the payments made. Kilkenny has retained Mr. William Deasley to represent him, and the case will be tried next Tuesday in the Police Court.

COURTLAND SMITH BROKE COLLARBONE

Virginia Horseman Thrown at Gravesend and Sustains Compound Fracture.

NEW YORK, June 7.—Courtland H. Smith, the Virginia sportsman, owner of a string of steeplechasers and hunter, who rides his own horses on the flat and over the sticks for the pleasure he gets out of the pastime, does not let a little mishap like having his collarbone broken in two places interfere with an afternoon's enjoyment of the races.

Mr. Smith rode his own horse, Navajo, in the Greenfield Steeplechase at the Gravesend track yesterday. After clearing every obstacle safely on the first turn of the field, Navajo stepped into a hole caused by the recent rains as he was rounding the barrel that marks the turn above the field stand. He stumbled and fell heavily, and Mr. Smith was thrown some distance, his right shoulder bearing the brunt of the impact with the turf.

The Virginian experienced some difficulty in removing his jacket in the jockeys' room, and Dr. Hoxley made an examination, disclosing a double break of the collarbone. The amateur rider's injured shoulder was bound up tightly and he was advised to go home and rest, but he laughed at the suggestion, donned his clothing, and went out on the lawn to see the remainder of the races. He was in the thick of the crowd in the betting ring before the fourth race, paid little attention to the jostling he received there, and in the full that he will be able to ride again in a few days.

THE PASSOVER.

History has no parallel to that awful duel—the contest between Omnipotence and the human will, personated by earth's proudest monarch, and intrenched in her strongest citadel, Pharaoh, with daring folly, had thrown his gauntlet at the feet of Jehovah in the insulting query, "Who is the Lord, that I should obey His voice?" For the honor of His name and the rescue of His people, the Almighty had accepted the challenge. That He was Lord of all was manifest by the very fact that His power showed itself in every kingdom, earth, air, water, man, beast. That He could preserve those who put their trust in Him was shown by the fact that in every instance the Hebrews were exempt from the plagues which fell universally with their full weight upon the Egyptians. If one of two plagues had come simultaneously with the demand for Israel's liberation, Pharaoh might have said, "nonchalantly, 'It is a mere coincidence'; but when nine had come in ascending scale as to severity and the veneration in which the subjects touched were held, and in each instance the Israelites had been entirely exempt from the universal suffering, upon a mind more obtuse than that of the cultured monarch of the most civilized nation of earth, it would have been borne in that the hopeless struggle was against Omnipotence, Pharaoh knew, but he had so fought against the first inkling of the truth that his heart was hardened to resist it when it was fully revealed.

The Cheapest Form of Health Insurance

YOU can buy Health Insurance now. Several good "Accident" Companies sell it. Sixty dollars per year will bring you \$25.00 per week, for every week you are sick. But, your time alone may be worth far more than that.

And \$200 per week might not pay for your suffering.

That's why "Cascaert" Insurance, which prevents Sickness, is worth ten times as much money as other "Health" Insurance.

Yet "Cascaert" Insurance will cost you less than Ten Cents a week.

That gives you a "Vest Pocket" Box to carry constantly.

One tablet taken whenever you suspect you need it will insure you against 90 per cent of all other ills likely to attack you.

Because 90 per cent of these ills begin in the Bowels, or exist through poor Nutrition.

Cascaert don't purge, don't weaken, don't irritate, nor upset your stomach.

No, — they act like Exercise on the Bowels, instead.

They stimulate the Bowel-Muscles to contract and propel the Food naturally past the little valves that mix Digestive Juices with Food.

The time to take a Cascaert is the very minute you suspect you need one.

—When you have a touch of Heart-burn, Gas-belching, Acid-riding-in-throat, or a Coming-on-Cold.

Carry the "Vest Pocket" Box ready for business where it belongs, just as you would your Watch, Pocket-knife or Lead-pencil.

It costs only 10 cents. At any drugist, be sure you get the genuine, made only by the Sterling Remedy Company, and never sold in bulk. Every tablet stamped "COC."
